

MATH-UA 140: Assignment 0

James Pagan, September 2023

Professor Raquépas

Write a brief note to the instructional team in the space below listing anything about you as a student that you would like us to know.

- I am a freshman familiar with olympiad math and (the first course content of) modern algebra and real analysis, fluent in proofwriting. I will also submit assignments on L^AT_EX— if the instructional team permits as such.

What are the two known exam dates so far?

- The two exam dates are October 19 and November 16; the date of final is yet to be announced.

What recitation section are you enrolled in, and who is your TA?

- I am enrolled in Section 026, taught by Santi Aranguri Diaz.

Will curves be applied to the grades of individual assignments or exams?

- No; curves will be applied to final letter grades, but not to individual assignments or exams.
